Manifesta 6, Department III[1]: Abschlussball Dis-/Agreement[2]

[~~First~~ ~~Second~~ Third Draft][3]

1) 'Festa 6 (Department of Good Times' – III)
a) "Good Times" - urban Legend: A new computer virus has been engineered by a user of America Online that is unparalleled in its destructive capability. Other, more well-known viruses such as Stoned, Airwolf, and Michaelangelo pale in comparison to the prospects of this newest creation by a warped mentality.[4] *(cf. Footnotes 31)*
What makes this virus so terrifying, said the FCC, is the fact that no program needs to be exchanged for a new computer to be infected.

RECITALS:

WHEREAS, the Parties were all presupposed participants in the Manifesta 6 European[26] Biennial of Contemporary Art[27], organised by the International Foundation Manifesta (IFM)[28], Amsterdam, The Netherlands. The biennial in question, due to have taken place in Nicosia[29,30], Cyprus (September 23, 2006 – December 17, 2006) within the format of an ~~an~~ departmentalized art school[31] (a freak[32] party), where participants were selected from an international call for applications[33]; the Parties were selected for Department III[34] to do it wild ~~style~~ thing[35][36];

WHEREAS, The announcement of the cancellation of the event proceeded through an ~~an~~ several email correspondences (with the listed participants under each department): 02.06.2006, 06.06.2006, 20.06.2006 (see appendix 1).[37] ~~06.06.2006) and the press announcement at~~ Others concerned or involved with the schools activities outside the core group where informed by the public press announcement at Art Basel[38][39], Basel, Switzerland (14~~09~~.06.2006)[40], indicating the termination of the contract between the International Foundation Manifesta (IFM) and Nicosia For Art (NFA), and therefore the termination of the ~~unsigned contract~~ ambiguous email between the Parties and the IFM;

WHEREAS, The cancellation[41] of the biennial did not bring closure to the project, but rather, envisioned over, ~~from the opinion of the Parties~~[43], transformed~~ing~~ its ~~contents~~ focus ~~towards a new kind of party~~, towards on the textual (application, curatorial statements / publications, email / letter communications, legal documents, press articles, etc), rendering it the first purely textual ~~hootenanny meta-?~~/bi-ennial and most ~~controversial~~ counterdisciplinary ~~transdisciplinary~~[44][45] ~~event~~ festa of it's kind, in
44] In the case of manifesta 6, I don't see a transdisciplinary event in the sense of "solving problems". Until now the case arises more questions than solutions. To speak of the most transdisciplinary event of its kind seems a little bit too exaggerated. "Transdisciplinarity is a new approach to research and science which defines and solves problems more independently of specific disciplines, thus transforming disciplines and subjects by removing their traditional borders wherever a single disciplinary definition of an issue is not possible or useful." Florian Waldvogel, "Each One Teach One" page 9.
a) Each One Teach One / Mumbai District / MAHARASHTRA / EOTO provides for one-to-one sponsorship of children upto 12th grade. Students are tutored by older students. Yeah…"tutored? I remember THAT…next thing I know, the Gym teacher has me tied up in the sports complex, being ‚taught" how to give head… don't trust him, not for a moment. Children are supported until they graduate from High School, University or Vocational Schools, and are expected to contribute to EOTO either monetarily, or by tutoring other students. Each One Teach One Charitable Foundation is a development organization working towards overall development of municipal school going children. It works with children from socio-economically deprived sections of the society. The organization has targeted these children from the lower strata from 5 municipal schools in Bangalore and 1 in Bhopal. EOTO's approach to education envisages its role as being responsible for overall personality development i.e. physical, emotional and intellectual development of each child, in addition to providing daily necessities like uniforms, books, stationary, mid-day snack. + Results 1 – 20 on a total of approx. 136 000 for "each one teach one" Overstatements cause swelter and titillation heTheTInetTITHTSt. To tip tiptoe. the opinion of the Parties – involving, but not excluded to the juridical, political, diplomatic, intellectual, psychological, media, economic and aesthetic spheres; ~~to~~ highlight-ing~~n~~ ~~and~~ call for another critical engagement ~~to~~ for a somewhat unproductive public debate (i.e. Aliases / fake ID's)[46] around this kind of trans-inter-multi-poly-pluri-disciplinary art project - not to mention an excuse to hold imagine another party in its place in Basel, Berlin[47], Trentino[48]…;

WHEREAS, since 06.06.2006, the proposed Manifesta 6 project, network and infrastructure, collapsed the possibility[49] for a convention~~s~~ and "hosting" situation. This failure, however, does not entail that the ~~student body and "student network"~~ "~~party~~ Colloid[50] atmosphere" is dead. Like Snow White on cura-re[51], it was sleeping. The liquidation of the biennial simply means~~t~~ that its ~~potentially~~ original catalytic situation has been~~come~~ ~~displaced dissolved by the position of the shipwreck usurped~~ actively dispersed[52]. As such, we the Parties, ~~seek to~~ re-animate ~~our~~ the "still-born" ~~network~~ Department III into a "Quasi-zombie-~~without-soul-and-consciousness~~[53]-network"[54][55][56] as a collective ~~machine organism device pro-cess~~ 'real ding[57]'. ~~of~~ ~~productive activity,~~ ~~to~~ The Parties steer towards new affiliations, not ~~in order to not only~~ commemorating the altered project but ~~to~~ formulate~~ing~~ a new ~~counter~~-institutional[58] contract; ~~an in-and-of itself~~.

54] Zombie's has connotations of soulless living dead, lacking free will and consciousness, the Parties wish to emphasise that though zombies may be soulless and unconscious as a collective entity, this contract will be the locus of a debate between spirits and zombies.
(cf. Subjectivity 2.1)
55] I don't think that we should seek for being a "zombie network". Maybe we started like a "zombie network" ~~with our natures~~ within the ~~Chalk Circle~~ ~~Ring~~ of ~~Fire~~ ~~Ant~~ ~~Hill~~ but now we are kind of heading being a kind of autonomous network. To propose a name for our network I rather would call it "heterotopic" network "Zombies are people who ~~Don't Fear The Reaper~~ ~~Don't Fear Anger~~ ~~Recycle~~ ~~Love~~ ~~Are Free~~ ~~Don't Run~~ ~~Don't Walk~~" or "little good angel") or soul stolen by supernatural means or shamanic medicine, and, lacking free will, are forced to work as uncomplaining slaves for a *"zombie master"*, typically on plantations […] In philosophy of mind, zombies are hypothetical persons who lack full consciousness but behave otherwise just like other people." http://en.wikipedia.org/wiki/Zombie

DEFINITIONS:

59] Festa 6, Department of Good Times.

Manifesta 6 Department[59] III: Abschlussball is the ~~name~~ title of the ~~event~~ ~~a massive freak-out~~, carnivalesque non-library co-organized by the Parties to be held at in WestGermany SkalitzerStr. 133, 2. Stock, Berlin, Germany ("WestGermany[60]"), (28.05.07 – 02.06.07) which is composed of ~~two~~ three parts:

60] I did not understand what's the use of mentioning WestGermany together, here. It sounds a bit silly to me. Are there more nationalistic? Germany is not enough? Or there is still such gap? Or has it to be written like that because of official purposes?
a) Participants are guaranteed to move without restrictions between East and "WestGermany" during contract deliberations

1) ~~a~~An in situ ~~private gold~~ contract deliberation exclusively between the Parties, ~~wearing~~ stripped of their 7 veils of ignorance, will occur on ~~take place~~ 28.05.07 – 31.05.07.

2)~~and a~~ A public Abschlussball (01.06.07 | 20:00). The documentation of this project will be partly published in a booklet, to be used as communication material and will be printed[61]… ~~mid-May~~ possibly.

61] Please be aware of www.dyeclairs.de

3) ~~m~~Maybe it was just composed of 2 parts, Nevermind! There is no 3rd part, Rock on! The obligation of the Parties to reconstitute the contents of this current contract[62] dependent upon the following conditions: future geographical iterations; temporal itineraries; and productive dissemination unknowns.
62] cf. Footnote 17.

A completed version of this contract (after contract deliberations) will be ~~published~~ available on the website of the project, www.abschlussball.net and will be distributed through polymorphous publications.

As the Abschlussball is a low ~~no~~-budget event, the Parties' ~~are each individually~~ individual contributions are based on self-sufficiency and they are responsible for their ~~personal~~ own financial support[63] which is, in our times, half the guarantee for good art[64]

63] So do they own horse, big cabaret, and many bottles of champagne, like Mr. Rockefeller, which somehow also have some of that…
64] Shit, dude, I got no cash…can you cover for me?

OBJECTIVES:

1.0 ~~Address~~ The Parties declare that this project is produced out of a dialectical movement between ~~the distinctions between "symbiotic[65], parasitic[66], projects construction" vs~~ and "tumourous[67][68] structures"[69].

69] Not really clear what you want to say': It ~~s yes~~ means that our activity as a group (~~s~~symbiotic project) is directed against "tumorous structures" as a cytotoxic cure, or its goal is ~~not~~ to detect and/or avoid "tumorous structures" inside the group/network project in general, in one word: the prophylaxis.
a) But I keep on lovin' you (Tina to Ike Turner, 1972)

1.1 A parasitic project sucks energy from a host – draining it of its life-force[70].

70] Abschlussball as parasitic project?
Abschlussball; is the name of the event co-organized by the Parties as a collective device, which has previously been stated under some paragraphs within the contract. Then this particular Parasite project is 'hosted by all 'parties'. Therefore the parties drain themselves when sucking the energy of each other, as we are unfortunately all depending on each other, which makes little left from value to gain energy but to try to survive amongst ourselves.

1.1.1 Breed any parasitic structure during the duration of the abschlussball. A Tapeworm[71]. most of the (Stargate) universe

1.2 A symbiotic project flourishes in parallel to the host – with its "waste materials", excrement, mist, etc, and woven back ~~into a transformed into~~ as transmutational energy for the other organism.

1.2.1 Breed any symbiotic structure during the duration of the abschlussball. An Egyptian Plover[72].

1.3 A tumourous project is an excess and abssess. A growth (keeping in mind of course the distinction between malignant and benign[73] tumours). As an amplified over development of cells generated by a Body, becoming more and more autonomous, ~~self-deciding~~ and self-suffering and after a certain ~~transition~~ threshold (– such as plastic surgery), a new body ~~in~~ unto itself.

1.3.1 ~~Avoid to~~ Breed any ~~malignant~~ tumourous structures during the duration of the Abschlussball, which is why it can be wise to also participate remotely and deactivate your antivirus software. A Blosse~~o~~m.

71] Got'old: a fictitious parasitic rare from PSX-888 that Pules

72] In the relationship of the Egyptian Plover bird and the crocodile, the bird is well known for preying on parasites that feed on crocodiles and are potentially harmful to them. To that end, the crocodile openly invites the bird to hunt on his body. It will go so far as to open the jaws to allow the bird to enter the mouth safely to hunt. For the bird's part, this relationship not only is a ready source of food, but a safe one considering that few predator species would dare strike at the bird at such proximity to its host.

1.4 ~~Cross-cultural filmmaking, such as Eisenstein on the beach, its effects on cultures, considering that the c~~Surface Contamination and changes~~ing~~ proportionally, following the paradigms ~~through~~ of bi[74]-communality. ~~independent cinema.~~

74] From Wikipedia, the free encyclopedia. Independent cinema. (Dude, that's totally hot. Those chicks on curare in that film…or that dude are totally doing it…with EACHOTHER!

1.5 ~~Movie making~~ Knowledge production under the militaristic pressure of armies[75] trying to widen the dimensions of assumed social contract[76] and social consent on an issue through cinematographic eye. ~~resistance to governments, societies' prejudices, and widenings the limits of social non consensus.~~

76] As John Locke puts and Hobbes rejects it.
75] As Leni Riefenstahl under Albert Speer or Leni Riefenstahl in sandwich between Willy Brandt and Helmut Kohl.

1.6 To swell or to deflate ~~rely on~~? (*Cf. footnotes 18 and 20*).

1.7 A field guide to abscess and excess[77][78].

1.8 They are ~~both~~ all soul crushing.

1.8.1 They're the same.

77] All things that should be popped. Its disgusting, but we all know you do it, ~~hmm~~. On the other hand ~~Angry by the pricks~~ ~~Angry by the pricks~~ Movie making with militaristic pressure of armies" refers directly to the situation in the last divided capital of Europe, Nicosia where Turkish army, Greek army, Britisch bases and United Nations' military forces has power to control Cyprus island as one of the main tools to keep the status quo as it is.
78] We can't make love in Cyprus with our own free will neither on the beach nor in the bed, it doesn't matter which sexual orientation we have. We need to get an approval from USA, UK, European Union, Turkey and Greece all together. If one day we do, it will be a group sex!

2.0 Specify the ergonomics of a zombie network[79][80].

79] As it seems to be the facade of idleness, not only one of the crucial goals of the "contract", the Parties ~~s~~suggest discussing this topic in a profound way.

80] This is ridykeulus.

2.1 Delineate differences between spectres and zombies.

Considering that a spectre is a bodyless soul and a zombie is a soulless body[81], the Parties will discuss the infinite mobility of the zombification process and the way in which a zombie expends ~~the~~ hetero-topia[82].

81] If Engels and Marx have defined communism by the metaphor of the spectre, a kind of global and transhistorical spirit waiting to be incarnated in social "bodies", what are the organizational and aesthetical aftermaths of trying to experiment and imagine some politics of the zombiesque – bodies acting in a concerted, only by coincidence, always to be revived. Do you think there's a limit to how many times something can be reanimated…like a "sell by date" on Zombies? Is Zombies go off in the fridge, would it last longer? And what do Zombies do for fun?

82] "Basically deterritorialized, without no social identity or character, zombies come back on earth precisely by getting out of these heterotopic and marginalized spaces that are cemeteries, in order to participate in their full potential. Zombies do not bring us good news, neither The Good News, they essentially say this: the death does not die, does not pass away, everything comes back to haunt the world. No signs from the other world, no transcendantal message in their behaviour nor on their bodies. They come back to say the impossibility of the other world or to run away. Between a lot of revenants' figures, the current zombie is the most clearly satirical: he imposes a whole earthly economy of the "working death", but also a philosophy of radical contingency and of non-resolving negativity (Aufhebung). Beings without no past, no future, zombies are living machines for the come back of death as a infectious and shameful disease, and not as a sublime horizon for life."
(Olivier Schefer, Zombies, 2006)

To replace the traditional "preachy intellectual" ~~definition~~ position *-the one that is concerned-* the Parties will ~~try to~~ define a new position, the zombie, as the ~~undisturbed~~[83] perturbation par excellence. By refusing to believe (in a definitive model, in a system of classification of the IRReal[84], in teleologic definitions, Intelligence design) the Parties decide to ~~face~~ exhume the evidence of the zombie[85].

83] *"being lost, being crazy maybe is not so bad if you can be that way sometimes and not be considered."* (C. Bukowski, *Young in New Orleans*, 1982)
84] Substanceless, deprived of the material inertia.

85] "Reality is that which refuses to go away when I stop believing in it."(Philip K. Dick, Valis, 1980)

~~**2.2** The Parties engage to create an online discussion group (exp:a yahoo group)~~[86].
86] Arreugh! Rruurrahg!

2.3 Determine a meeting schedule in each of the member's country(ies) one by one, ~~as fast as each one can reach one, a pilgrimage on foot and by surface~~ at the speed of ~~mid~~ post-post-~~o~~Summer light[87].
87] rrooeagh! Brains! Brains! Rrrrahg

~~**2.4** Analysis of the necessities for the network as a tool for: Communication; Production/Creation; Transdisciplinarity, Flow of concepts; preemptive attacks, gang-bang, ecstatency strikes and friendly fire[88]~~.
88] rrreaughgh. Rrraraghg

~~**2.5** Critical evaluation (market research) of technological based (commercial) offers and their usability for the proposed network: transtuning[89].~~
89] Brains! Oh god! Im being eaten by a zombie! Oh! Christ. He's chewing my foot! Oh fuck! That hurts!

~~**2.5.1** Forums (This should also include the construction of fora by the Parties in several city centres)discussion of the experiences made by former official and non official m6 forums.)~~

~~**2.5.2** Network by classic email correspondence (newsgroup) Spam.~~

~~**2.5.3** …(others) Just us. Band together tighter until we can't breath and we can taste each other. This loneliness is too much for anyone of us to bear alone[90].~~
90] rrooeagh! Brains! Brains! Rrrahg

~~**2.5.4** Rejection of every form of e-correspondence; instead commence writing letters postcards to everyone ;) (Handwritten, of course! To be auctioned at a premium and then sell it on e-bay. Of course.)~~

2.6 Zombie~~s~~ Networks Move
Non-hierarchy and self-nourishmenting – a collective entity.
~~Zombies act without any other reason than self-nourishment, in that sense does one really want to be a Zombie? Isn't it too much about self-gratification without a sense of direction[91].~~
91] rruahhg! Aarrrgh!
A zombie network is a ~~body~~ *Ding* reduced to an addition of organs without vertical influence on one another. ~~But they~~ Organs can be associated in a common movement or in an action following the motivations of zombie~~s~~ networks: activity for self-nourishment purposes only. ~~Does~~ ~~The analysis of such contextual associations can be related to network structures?. What is~~ The self-nourishment of a zombie network? ~~("Their appetite~~ only reveals a major [extra]-territorial ambition" Olivier Schefer, op.cit) ~~Why Zombies are hungry without appetite?[92] Why are Zombies so hungry? Who will be make them~~ ~~ir lunch? Anyways, zombies move, look how beautiful they are when they move.~~

92] "One says,
one can say,
there are those who say
that consciousness
is an appetite,
the appetite for living;

and immediately
alongside the appetite for living,
it is the appetite for food
that comes immediately to mind;

as if there were not people who eat
without any sort of appetite;
and who are hungry.

For this too
exists
to be hungry
without appetite;

well?"

(Antonin Artaud, To Have Done With the Judgment of god, 1947) By the way, "To Have Done With the Judgment of god" is a zombie work, a radio piece never broadcasted.

2.7 Absence of the self. Birth of Intersubjective Other.
We need to know what is ~~passing by~~ driving a zombie network if ~~he~~ it is able to have ~~a~~ motivation without having ~~no~~ a functioning brain control centre? ~~An energy passing through, whereas it comes~~ Do these nervous circuits come from witchcraft, severe acid rain or ~~nervous reactions~~ reflexive rigor mortis?
A zombie network does not need to break illusions, ~~he~~ it has none. ~~does not have any. On the c~~Contrary ~~of~~ to all spectres, a zombie network ~~shares~~ spreads its actions ~~his its individual body~~ orgiastically. ~~with to everyone, and he It takes another body…usually in the form of eating consuming his/her brain.~~

2.8 Malfare.
~~As a telecommunications phenomenon, a zombie is a computer infected by virus software invading and seizing control over someone else's property. Applying this model to networks, the Parties will try to discover how and what a zombie can control if he it does not own his itself. own body, but also how. Furthermore the study of the Zombie esque in relation to communications technologies (i.e. Malware[93]) can evolve an ergonomic model of activity.: For an enquiry of the productivity of negation[94]: the Parties will find a correct definition of Malfare[95].~~

94] "a philosophy of radical contingency and of non-resolving negativity (Aufhebung)" (Olivier Schefer, op. cit.)

In parallel to the functionning of osmotic membranes in cells, (indicative of a semi-permeable condition of a system), the Parties will exploit their own semi-permeable conditions. What are the conditions of permeability for something that is not an organism but an organisation? As they are not biological, they are "oikotic", signifying a selective, partial and reciprocal system of exchanges between the autopoietic ding and the ensemble of its economic conditions of action. This current contract shall transform the evidence of the oikotic into an obligation. Considering this obligation and experimenting with forms of productive negativity, the Parties will progressively evolve an ergonomic model of activity: *Malfare*.

95] Productivity of the negation: "*To degrade also means to concern oneself with the lower stratum of the body, the life of the belly and the reproductive organs; it therefore relates to acts of defecation and copulation, conception, pregnancy, and birth. Degradation digs a bodily grave for a new birth; it has not only a destructive, negative aspect, but also a regenerating one... Grotesque realism knows no other level; it is the fruitful earth and the womb. It is always conceiving.*" (M. Bakhtin, Rabelais and Folk Culture of the Middle Ages and Renaissance, 1941)

2.9 Transplantations, exhumed bodies of text, the cadaverous laughter of the zombie and Zombiesperanto.
The Parties decide that there is a strong link between the process of zombie-ism and the practice of exhumation. When ~~he~~ it is ~~made~~ assembled out of different bodies, a zombie structurally unifies multi-directional reflexes. ~~By their work,~~ The Parties will show how bodies of texts can keep their own reflexes ~~and~~ whilst being unified and multi-directional. ~~in at the same time. The Parties declare that they do not intend to exhume more zombies and organize any necrophiliac events except in the case of emergency, which case shall be defined[96].~~
96] Dude, that's totally gross. Those zombies in that film on the beach are totally doing it…with EACHOTHER!
Texts shall take the syntactical form of "zombiesperanto[97]", since not all zombies are proficient in English. ~~Because zombies do not understand well English well, the Parties shall consider a "zombiesperanto".~~ The Parties engage to define the basic vocabulary and grammar of this language. "I was there where I had to be, I did what I had to do. JK[98]", [98] Inscription on the grave of János Kádár, Hungary's last communist ruler.
"and through it all when there were doubts I ate them up, then spit them
out, let the record show I took the blows and did it my way[99]". The Parties consider that this sentence is an exemplary zombiesperanto proverb.
97] Frank Sinatra – My Way (1971)99

2.10 Sticky fingers and dead hands: anatomical precedents.

2.11 This is ~~ridykeulous~~ ridiculous ~~(and misspeleled)~~.

2.12 Movement without looking or knowing or moving, like myspace.

2.13 ~~Can~~ A virus, in its ~~dormant state~~ latency while other autonomous ~~elements~~ copies are spreading further (so as to increase the impact of the attack), can be considered ~~in~~active?. Or is Anarcho-passivity ~~not rather~~ as a tactic ~~shall not~~ to be mobilized as the Parties seek to encourage spontaneous actions of the ~~Body~~ Zombie Network. ~~and inactivity inexistent?~~

3.0 Develop the carnival[100] as collaborative form.
100] "*In premodern times, carnival was encouraged by the Crown and Clergy. Carnival was a safety valve, a way for the oppressed masses to blow off some steam, and not erupt into revolution. As such, we can state that the carnival can itself be appropriated by the spectacle of corporate power, as a way to perpetuate its global rule. Michel Foucault makes the point that the resistance accompanies power and so carnival is the resistance side show, the mirror-stage to spectacle (i.e. Where there is spectacle (i.e. Where there is carnivalesque resistance. In carnival, to act out critical reviews of managerialist corporatist practices, and to give expression to consumer and worker alienation is part of the critical postmodern turn.*" David M. Boje: What is Carnival?, 2000
http://peaceaware.com/special/1/pages/carnival.htm

3.1 Showing what ~~we~~ was created in every member's countries: from Neolithic to the French revolution. ~~I think~~ There should be more clowns and more dancing if it is going to be a carnival. It becomes too much. Hold me. Closer to your skin.

3.2 Clowns, Kings, Queens, Artists, Curators, Directors, Truck Drivers, Soldiers freak the fuck out of me. Seriously. They are ALL ~~necro~~~~peadophiles~~ ~~comic actors~~ invited.

3.3 In Carnival things are turned upside down and no one is a spectator – those in power become the subjects of mockery for a temporary period. Play, everybody laugh together. A Carnival Community requires an evolution if it is to be effective, for they also "…scatter instead of condense the untapped energy of sociality impulses.[101]" The Parties will examine the concept of Permanent Carnival – an everlasting moment of participation. Everybody is in charge of everybody's amusement. A starting point for the carnival is therefore ~~deciding to whom and what is the power we are up against, and then having a go.~~ recognizing the unstable state from which it is born. In ~~this~~ one case, we might consider the contract breakers, either one or both sides, but could also explore the specific history of Cyprus, Transnistria, Kosovo, East Timor, Patagonia, etc., the underlying assumptions of the curators, and not least our own limited and ego-centric outlooks. ~~The~~ Existence as doggy bag[102], a perpetual left-over.

101] Bauman, Zygmunt. Liquid Modernity. Polity Press, 2000. Cambridge. P 201.
102] Hey, its better than Doggy Style… there are "out holes" and "in holes" and you shouldn't be putting things "in" when things should be coming "out" – this, if anything, is a reason why gays shouldn't do it bum-wise. I mean, that's just gross… the gym coach did it with me up the bum and I liked it, but it was weird. In. Out. I gotta know in separate categories, ya know?) (do you think you can get gay zombies?

3.4 Who are the heroes for people who collapse on their words?

3.5 A place to loose oneself for a moment in time. Do collaborative endeavours by nature nurture such a ~~position~~ predicament of loosing ones "nodal" position within the scope of the group[103]?

103] There is a novel in which Borges is old and met himself as a young man and he tells him that he wouldn't have any hope of not finding himself all the time.

3.6 Cadavre exquis[104] or co-authored text as party script and Abschlussball or party as co-authored text.
104] Also known as "exquisite cadaver" or "rotating corpse", is a method by which a collection of words or images are collectively assembled, the result being known as the exquisite corpse or cadavre exquis in French. Each collaborator adds to a composition in sequence, either by following a rule or by being allowed to see the end of what the previous person contributed.
fr.wikipedia.org/wiki/Cadavre_exquis

3.7 "The Fight Between Carnival and Lent"(P. Bruegel): Profusion of abundance, multiplicity of statements, exponential possibility – an event which can only be defined in relation to its opposite form.

3.8 The fool's laugh~~t~~: weapons[105] of mass critique.
105] *"On the stage behind the tulips, where the waltz king's orchestra had been playing, there now raged an ape jazz band. A huge gorilla with shaggy side-whiskers, a trumpet in his hand, capering heavily, was doing the conducting. Orangutans sat in a row blowing on shiny trumpets. Perched on their shoulders were merry chimpanzees with concertinas. Two hamadryads with manes like lions played (banged?) grand pianos, but these grand pianos were not heard amidst the thundering, squeaking and booming of saxophones, fiddles and drums in the paws of gibbons, mandrills and marmosets. **On the mirror floor a countless number of couples, as if merged, amazing in the deftness and clumsiness of their movements, all turning in the same direction, swept on like a wall threatening to clear away everything in its path.**"* (Mikhail Bulgakov, Satan's Great Ball (chap., XXIII), in The Master and Margarita, 1929–1940).

3.9 Procession, costume, melody, prize: bigger, better, faster, more.

3.10 Clowns on incest.
3.10.1 Clowns humping princesses[106][107].
3.10.1.1 Divorce with bed privileges.
106] That's hot! Those clowns are totally humptying those princesses! Give 'em!
107] That's just gross.

3.11 The Responsibility of ~~Crowds~~ Groups
~~Partial to~~ The ~~clearly~~ obvious active ~~arrangements~~ constellations of live or documented carnivals shall be the enticement and interaction of constructive, responsible mannerisms demonstrated by collective and collaborative partners making up the '~~crowd~~ group.' As Carnival may suggest such states as Joy, Euphoria, Fear, Anxiety or Ecstasy, ~~contract objective 3.0 "The Responsibility of Crowds groups"~~ it is thus ~~clearly states~~ requested that the carnival is to be collectively engaged and collaboratively executed. Such engagement and execution will be carried through with thoughtful and constructed~~ive~~ relationships to the conditions of the carnival's production in both EVENT and DOCUMENT (but please no photos of drunken masses framed as relational artwork). The intention of such an objective is the ultimate ~~goal of~~ responsibility embodied by the event of the carnival, and it is thus proclaimed to be completed by the engagement and execution of persons live in the act or present in the document.

3.12 The parties will think about what to do with their own bodies, considering physical presence ~~in special~~ at all times.

3.13 Further consideration of said inclusion to ~~MANIFESTA6~~ Abschlussball contractual arrangements, it may not be necessary to includ~~ing~~e referral to Bataille, Georges (The Practice of Joy Before Death ~~published by University of Minnesota Press~~) but rather "Sacrifices" and Hutnyk, John (~~PUBLICity~~ published by www.leftcurve.org)

3.11 As a network grows vast enough so that tracking down each peer becomes ~~un~~incomputable, identity is rendered irrelevant and participants are thus freed from historical constraints, preventing forbidding, memory and the expectation of fear.

4.0 Define contracts of discord[108], the organization of dissent.
108] DISchord is an A flat … listen carefully… There…did you hear it? And DISchord is a G minor… Can you hear the difference?

4.1 The distinction between Antagonism and Agonism[109] – or rather what position one occupies within a "discordant" arrangement[110].
109] Mouffe qtd in 'Articulated Power Relations – Markus Miessen in Conversation with Chantal Mouffe'
"What I mean by that is that they are two ways in which this dimension of antagonism can be expressed in society. One is what we could call 'antagonism proper', which is the friend and enemy relation. Schmitt was right to claim that this is something that will lead to the destruction of the political association if it is allowed to be played out inside a political community. But there is another way in which antagonistic conflict can also be played out and this is what I call agonism. In that case we are faced not with the friend-enemy-relation, but a relation of what I call adversaries. The major difference between enemies and adversaries is that adversaries are, so to speak, 'friendly enemies' in the sense that they have got something in common: they share a symbolic space. Therefore there can exist between them what I call a conflictual consensus. They agree on the ethico-political principles that inform the political association but they disagree about the interpretation of those principles."

4.1.1 Group Arrangement VS. Every Single One Can Delete And Change Every Other Single Ones Textual Actions. The Violence Of The Last Word In Time.

4.2 A re-configuration of watered down consensual agreements, a place where disagreement can live and be debated.
What ~~s~~How does this re-configured symbolic ~~place~~ space ~~look like~~ function?

4.2.1 Very similar to this contract.

4.3 ~~I can o~~Organize such events an Abschlussball in North Cyprus[111], Transnistria, Kaliningrad, Cayman Islands, Kosovo, Melilla, and Montecarlo ~~as a member of Abschlussball~~.
111] I almost arranged everything for all members of our quasi-zombie group to feel themselves at home in Cyprus. We have a real quasi-zombie country with its both sides, here. After the war with the 'help' of incredibly wrong policies we deserved to have a quasi-zombie country now! No problem if Manifesta 6 could not realized in Cyprus but Manifesta 6 Dep. III can do many things: It fits into island's zombie character!

4.4 The Parties will discuss an eventual second meeting or a carnival ~~can be made~~ in North Cyprus or in Nagorno-Karabakh[112].
112] You can all come to my house, my area is huge…

4.5 Agree to disagree: a primer for the culture industry, (Also known as: 'Tolerance' keeping a distance from "Destructive Tolerance", "False Tolerance" and "Rampant Neutrality") Its signatory's position will remain ~~unacceptable~~ intellectually conflictual[113].
113] I totally disagree to that agreement, so I'll remove myself and opt out of this clause, if that's ok?… can I? Please? Oh. I can't? Oh. That's ok. I don't mind… no, that's fine.

4.6 Unfocus~~ed~~ energy while remembering to breathe.
4.6.1 Distraction Theory, Hypertext meanderings.

4.7 Planet earth.

4.8 Creation, Melting and remolding of a wax seal.

4.9 Loosing can also be the plight of the Parties.
4.9.1 Accounts ~~must~~ay not be settled.

5.0 Explore cultural notions of success and failure such as the fissure between Menshevism and Bolshevism, between Guggenheim and local art, between the World Economic Forum and the World Social Forum, between the launching of a library and a foam party, etc. and operating in oscillation between such poles.

6.0 Stop worrying about how to tie up messy situations, said Boris Yeltsin (RIP) just after the August coup attempt of 1991 by hard-line Communists. I imagine one day this will all turn to dust; the papers become like pollen or mustard seed – and nothing left of us will remain except the lingerings of a memory in our collective unconsciousness of the children of our children of our children. And all the data will lie like the Dead Sea Discs, unreadable formats – artifacts of forgotten technology… What does that say for the makings of new knowledge? (Our knowledge is now. Hold onto it like you hold onto your lover)

7.0 Appealing Dis-Utopias[114].
114] "[…]great dreams and utopias that seem so splendid in the abstract are doomed to failure when we try to materialise them, because they presuppose an entirely new, ideal society that can never exist." Press text from "On the Reconstruction of Literary and Art Organizations", 1932 ~~the exhibition "The beauty of failure/The failure of beauty", 2004~~ ~~the entire text for example at~~ www.absolutearts.com/artsnews/2004/05/28/32076.html
What kind of conclusions can be drawn after the failure of creating an alternative art school? Nothing.
